

Cardiovascular Basic Science Seminar Series

The Cardiovascular Basic Science Seminar (CV BSS) series is a multi-institutional program organized by the Texas Heart Institute at St. Luke's Episcopal Hospital, MD Anderson Cancer Center, and The University of Texas Health Science Center at Houston. It is held most **Thursdays during the academic year (September through May) from 4:00 p.m. to 5:00 p.m. at the Texas Heart Institute in the Denton A. Cooley Auditorium.**

This seminar series not only provides a unified forum for the cardiovascular research community at the Texas Medical Center to meet, but also connects us to outstanding scientists nationally and internationally. There is no cost to attend and the seminar is open to the public with a special focus toward post-doctoral fellows, scientists, researchers and physicians. Contact: Verna Devenport, Department Secretary, Basic Research Labs, 832-355-9144, vdevenport@texasheart.org.

Date: May 10, 2012
Speaker: Antonio Baldini, MD
Position/Institution: Director, Institute of Genetics and Biophysics, National Research Council (CNR), Naples, Italy
Presentation Title: Mechanisms of Cardiac Progenitor cells homeostasis

Date: May 17, 2012 - CANCELLED

Date: May 24, 2012
Speaker: Edward TH Yeh, MD
Position/Institution: Professor/Chairman, Dept. of Cardiology, The University of Texas MD Anderson Cancer Center
Presentation Title: Doxorubicin-induced cardiotoxicity: Paradigm Lost and Regained

Date: May 31, 2012
Speaker: Marlene Rabinovitch, MD
Position/Institution: Co-Director, Cardiovascular and Pulmonary Sciences
Scholarly Concentration, Stanford University School of Medicine, Stanford, CA
Associate Director for Translational Research – Pediatrics,
Cardiovascular Institute, Stanford University School of Medicine, Stanford, CA
Presentation Title: Pulmonary Hypertension: Intersecting Molecular Pathways & The Promise of New Therapies
